The graphics you see is an executable clip_8 program.
To execute this drawing please follow these steps:

(1) Save this page as a local SVG file on your machine.

(2) Open **Klippen,** the online clip_8 test environment:
https://broesamle.github.io/clip_8/tutorial/**klippen.html**

(3) Drag+drop the file from your file manager (finder,
explorer) or load it via dialog:

Durchsuchen...

(4) After loading you should see a copy of this page,
embedded in the test enviroment.

(5) Control buttons (left to right):
`start`, `pause`, `step`, `reload`

(6) When you press `start` you should see the black
rectangle move up-right in one „jump".
Congratulations, you just executed a drawing!
